Lab 1: Linux Setup

Operating Systems
SOFE 3950 / CSCI 3020

Who am I?

- My name is **Pat**
- My email is **patrick.smuk@uoit.net**
- My GitHub is **github.com/Patman64**
- If you have any questions **contact me on Slack** or **send an email**
- Office hours available on request

Today's Agenda

1. Arrange yourselves into groups of 3
2. Install a Linux-based operating system
3. Install a C compiler and editor
4. Compile a simple "Hello world" program
5. Publish your "Hello world" program to GitHub
6. **Show me that you can make changes, recompile, commit them, and push to GitHub**

Each group member must do steps 2-6.

There is no lab report, just show me your setup once you're finished and you may leave.
